To the Residents of Bridgeport:

The Borough of Bridgeport would like to thank the residents of Bridgeport for their participation and mutual dedication to the advancement of our town in all productive and positive ways. In the past three years, Borough officials and administration have launched more than one million dollars' worth of infrastructure improvements, engaged professionals to create a new comprehensive plan, introduced multiple family friendly community events, and adopted legislation that incentivizes commercial development; all of which will impact physical development of the Borough and encourage smart investment and growth.

The Borough has taken sincere actions to ensure Bridgeport remains open and welcoming to ALL, regardless of actual or perceived race, color, sex, religion, ancestry, genetic information, national origin, sexual orientation, gender identity or expression, familial status, marital status, age, mental or physical disability, veteran status, or the use of guide or support animals and/or mechanical aids. We will tolerate nothing less. EVER. Moreover, the Borough has recently taken steps to protect residents from discrimination and hate speech, promote equal housing opportunities, transition the Borough to green energy suppliers, and address issues surrounding mental health and addiction that affect us all. We consider all of these efforts to be fundamental to good government and integral to the positive growth that this wonderful community rightly deserves.

Council will continue to work with ALL Borough officials, administration, law enforcement, and members of the community toward this goal and recognizes the unique and invaluable perspective each brings to the process. We believe, with all united, the Borough can build on its incredible legacy and toward an ever-brighter future.
